

Profile Creation Services

Printer profiles are the essential ingredient to any digital printing solution. We have more than 15 years experience of creating profiles for all types of printer, media, ink, processing and workflow.

We specialize in creating high quality profiles, in ICC & CTB formats, for use in your digital printing application. We take all the necessary steps to ensure enhanced color accuracy and maximized color gamut. We can create ICC profiles for up to 10 ink channels and CTB profiles up to 16 ink channels. We'll create the pages, email or FTP them to you, you print and send them back to us, so that we can read them and create your profile.

DPIInnovations Inc.

3440 Pawleys Loop N, Stevens Plantation, St. Cloud, FL 34769 USA

tel & fax +1 407 957 9461

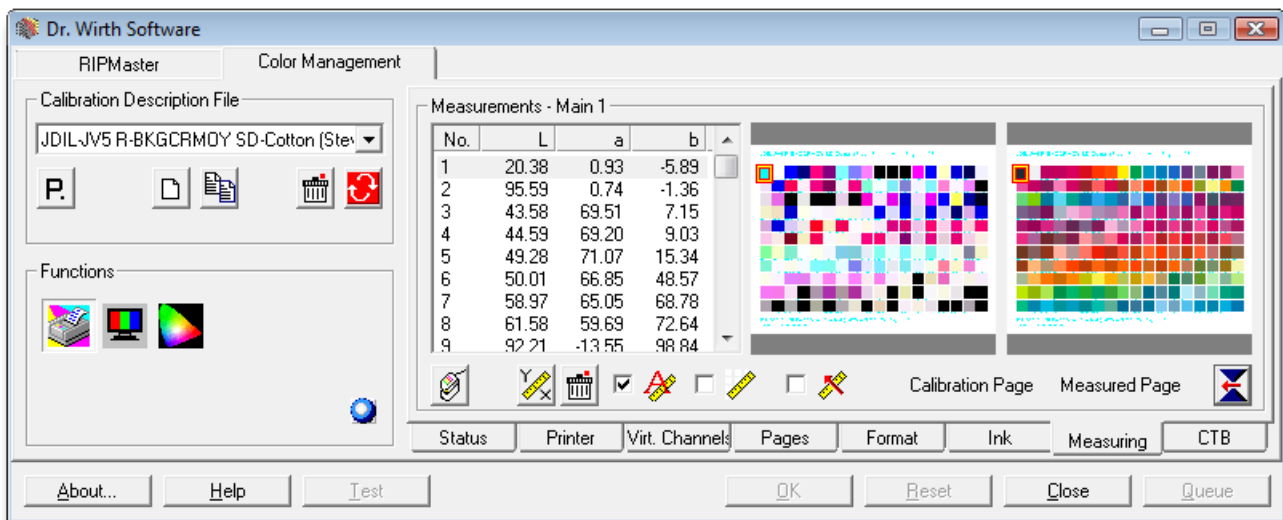

Dependent upon the number of colors in the ink set and the accuracy required profiles may contain between 6 & 40 pages. Prior to commencing the profile creation process, we will liaise with the client to determine the optimum profile size.

ICC profile creation is carried out remotely. We email or FTP you the digital files along with detailed instructions. You print the file(s) and ship them back to us, so that we can read them and create your profile.

CTB profile creation can be carried out remotely or as part of an online meeting, where we create the profile directly on your system (Clients without PROFILEMaster will receive a temporary license whilst the profile is created for them). The prices quoted above are based on a remote service. Profiles created via our online meeting service receive a 15% discount.

CTB's and ICC's with Linearization require the process of print & ship to be carried out 2 or more times, please keep this in mind when considering the timeframe for a profile to be created.

All prices exclude shipping, which is charged according to the service selected by the client; USPS, UPS or FedEx. Prior to commencing a profile creation service we require full payment in advance.

	RGB	Multi-Color
ICC (Excluding Linearization)	\$250	\$250 + \$30 per page
ICC (Including Linearization)	N/A	\$500 + \$30 per page
CTB	\$250	\$500 + \$30 per page
Wasatch Print Environment inc. ICC		\$500 + \$30 per page

All prices are quoted in \$'s and may be based on a Euro/\$ exchange rate, and as such are subject to change.
