

All Inclusive RIPMaster Upgrade Package

Upgrade to the latest version of RIPMaster, including;
On-Site Training, Online Software Upgrades & Remote Support

- ✓ A minimum of 3 days onsite training,
- ✓ An upgrade to the latest version of RIPMaster Pro^(M) v11,
- ✓ Onsite use of X-Rite i1/iO spectrophotometer for profile creation of a single media/ink combination, during training,
- ✓ 6 months of unlimited remote support & product updates via www.TheDigitalStylist.com.

DPIInnovations Inc. are the exclusive partner of Wirth Software GmbH, the developers of RIPMaster, Yuhan Kimberly's DTP Link version of RIPMaster and other OEM configurations of RIPMaster sold with Mimaki, Mutoh and Ichinose printers.

Due to our unique experience with these vendors and manufacturers, we are in an ideal position to provide you with all the software training, education and support that you will require.

This package includes a software upgrade from your current version of RIPMaster, including OEM branded versions, to the latest version of RIPMaster Pro^(S), which includes; improved color accuracy, ICC profile support, enhanced perceptual printing, new job management features & expanded printer driver features.

	USA/N.America	Europe/S. America	Rest Of World
All Inclusive Upgrade	\$5,995	\$6,995.00	\$7,995.00

Note : There may be a supplemental charge for travel during holiday periods or accommodation in 'high cost' locations. Please check with us prior to returning a signed agreement, so that we can advise if any supplements will be required.
